B.Tech Project

3D User Interface for the Google Search in Virtual Reality

Mentor
Dr. Sumit Kalra

By
Satya Prakash Sharma
Shyam kumar Gautam

Technology & Requirement

- ❏ Unity3D Editor
- ❏ Android SDK
- ❏ Google VR SDK
- ❏ Visual Studio
- ❏ Google Api key & Custom Google Search API
- ❏ Newtonsoft.json
- ❏ Google Cardboard VR Headset
- ❏ Android Mobile

Flow of Process

DLL File

- Start with c# library
- UnityEngine.dll
- Newtonsoft.json
- Use Google Search API & API key
- Make methods
- Build library
- SpraiseHtml.dll in bin/release
- Plugin is for Unity3d
- Call the Method from the unity
- Collect data
- Show results in Virtual Reality

SpraiseHtml.dll

.dll_file

How It Work

Newtonsoft
.json.dll

SpraiseHtml
.dll

UnityEngin
e.dll

Plugins
